

Rational Use of Antibiotics in Medicine

(Evidence in the New Millennium)

27th July, 2025, Sunday

Venue: Crowne Plaza, Ahmedabad

Time: 09:00 AM to 04:00 PM

Key Highlights:

- Antibiotics: Past, Present & Future
- Panel - Antibiotics in Renal Replacement Therapy
- Cephalosporins for you
- Drug Allergy
- Antibiotics Causing Thrombocytopenia
- Basic Interpretation of Sensitivity - Case Based Talk
- Medicolegal Aspect of Tele-consultation
- Rational Antibiotic Combinations
- Panel - Antibiotics in Transplant Patients
- Debate Inhaled with or without Parental Antibiotics
- Antibiotics & Artificial Intelligence
- Tackling Drug Resistance
- Therapeutic Drug Monitoring
- OPD Based Issues of Antibiotics

Mentor
Dr. Asha N. Shah
Sr. Internal Medicine
Specialist
Zydus Hospitals

Program Coordinator
Dr. Manoj Singh
Sr. Pulmonologist &
Critical Care Specialist
Zydus Hospitals

In Association with Association of Physicians of Ahmedabad

Dr. Nehal Sadhu
Internal Medicine
President

Dr. Harshad Patel
Internal Medicine
Hon. Secretary

Dr. Dinkar Goswami
Internal Medicine
Hon. Treasurer

Scan for Registration

The advent of antibiotics has revolutionized the 20th century medicine by significantly reducing infection-related morbidity and mortality. However, their overuse, misuse, and underuse have now led to rising antimicrobial resistance resulting in longer hospital stays, higher healthcare costs, treatment failures, and the emergence of multi drug-resistant organisms.

Misuse of antibiotics, particularly in non-infectious conditions and acute viral illnesses has become a widespread concern. It has led to the emergence of highly resistant bacterial strains and the unchecked use of irrational antibiotic combinations.

As physicians, our antibiotic choices are not just clinical decisions; they are reflections of our judgment, accountability, and foresight. So, we should prescribe antibiotics judiciously, evidence-based and as per antimicrobial treatment policy.

Zydus Antibiotic Symposium Learn is an attempt to find the right pathway of infection management after prompt diagnosis from history to current evidence and future research. This approach to the management of common community and hospital acquired infections through interactive case-based scenarios and thematic talks will be a novel step.

This symposium also brings together leading multidisciplinary experts to explore critical topics from the history of antibiotics to drug resistance and therapeutic drug monitoring through thematic sessions, critical insights, and interactive case discussions. Each case scenario will be taken by a set of experts in ID, Critical Care, Nephrologist, Transplant Physicians and Microbiologists and more.

Rational antibiotic use is not a restriction, it is the hallmark of responsible practice, sound clinical reasoning, and a commitment to patient safety.

EVENT FLOW

Registration and Breakfast	08:30 AM - 09:00 AM
Diya Lighting And Welcome Note	09:00 AM - 09:15 AM
Antibiotics: Past, Present & Future Dr. Raviraj Gohil	09:15 AM - 09:35 AM
Panel Discussion: Antibiotics in Renal Replacement Therapy	09:35 AM - 10:10 AM
Moderator - Dr. Kamal Goplani	
Dr. Maulik Shah, Dr. Jay Kothari, Dr. Ashish Soneji, Dr. Milap Mashru	
Cephalosporins for you Dr. Shivang Sharma	10:10 AM - 10:30 AM
Drug Allergy Dr. Raj Bhagat	10:30 AM - 10:50 AM
Antibiotics Causing Thrombocytopenia Dr. Nidhi Jain	10:50 AM - 11:10 AM
Tea Break	11:10 AM - 11:20 AM
Basic Interpretation of Sensitivity - Case Based Talk Dr. Anand Shah, Dr. Sarita Nayak	11:20 AM - 11:40 AM
Rational Antibiotic Combinations Dr. Pratibha Dileep	11:40 AM - 12:00 PM
Panel Discussion: Antibiotics in Transplant Patients	12:00 PM - 12:45 PM
Moderator - Dr. Samir Patel	
Dr. Himanshu Sharma, Dr. Ketan Patel, Dr. Pathik Parikh, Dr. Manoj Shevkani	
Lunch	12:45 PM - 01:30 PM
Debate: Inhaled with or without Parental Antibiotics Dr. Jitendra Kotadiya, Dr. Amit Prajapati	01:30 PM - 02:00 PM
Medicolegal Aspect of Tele-consultation Dr. Raj Raval	02:00 PM - 02:20 PM
Tackling Drug Resistance Dr. Atul Patel	02:20 PM - 02:50 PM
Therapeutic Drug Monitoring Dr. Vipul Parekh	02:50 PM - 03:20 PM
OPD Based Issues of Antibiotics Dr. Swati Gohel	03:20 PM - 03:40 PM
Antibiotics & Artificial Intelligence Dr. Om Lakhani	03:40 PM - 04:00 PM

FACULTY

Dr. Pratibha Dileep

Sr. Critical Care Specialist
Zydus Hospitals, Ahmedabad

Dr. Atul Patel

Infectious Disease Clinic
Vedanta | Sterling, Ahmedabad

Dr. Samir Patel

Sr. Critical Care Specialist
Shree Krishna Hospital, Karamsad

Dr. Kamal Goplani

Sr. Nephrologist
Zydus Hospitals, Ahmedabad

Dr. Jitendra Kotadiya

Sr. Interventional Pulmonologist
Zydus Hospitals, Ahmedabad

Dr. Om Lakhani

Sr. Endocrinologist
Zydus Hospitals, Ahmedabad

Dr. Nidhi Jain

Hemato-Oncologist & Bone Marrow Transplant Specialist
Zydus Hospitals, Ahmedabad

Dr. Shivang Sharma

Infectious Disease Specialist
Zydus Hospitals, Ahmedabad

Dr. Himanshu Sharma

Liver Transplant & Liver Critical Care Specialist
Zydus Hospitals, Ahmedabad

Dr. Sarita Nayak

Microbiologist
Zydus Hospitals, Ahmedabad

Dr. Anand Shah

Microbiologist
Zydus Hospitals, Ahmedabad

Dr. Ashish Soneji

Critical Care Specialist
Zydus Hospitals, Vadodara

Dr. Jay Kothari

Clinical Lead - Critical Care
Apollo Hospital, Ahmedabad

Dr. Ketan Patel

Sr. Infectious Disease Specialist
Zydus Hospitals | Vedanta, Ahmedabad

Dr. Vipul Parekh

Head Intensive Care Unit
Shree Bajrangdasbapa Arogyadham, Bhavnagar

Dr. Raviraj Gohil

Head - Critical Care
Aadicura Superspeciality Hospital, Vadodara

Dr. Milap Mashru

Critical Care Specialist
Synergy Hospital, Rajkot

Dr. Raj Bhagat

Allergy Specialist
Dr. Bhagat's Allergy - Asthma Clinic, Ahmedabad

Dr. Pathik Parikh

Gastrologist & Hepatologist
Apollo Hospital, Ahmedabad

Dr. Manoj Shevkani

Infectious Disease Specialist
Cure-Infectious Disease Clinic, Ahmedabad

Dr. Amit Prajapati

Intensivist & Critical Care Specialist
Shalby Hospital, Ahmedabad

Dr. Swati Gohel

Infectious Disease Specialist
Narayana Hospital, Ahmedabad

Dr. Maulik Shah

Sr. Nephrologist
Zydus Hospitals, Anand

Dr. Raj Raval

Director - ICU & Emergency Services
SAL Hospital, Ahmedabad
